

GO FOR THE GOLD

Rowe presents its jukebox champion:
LaserStar® Gold CD-100A.

LaserStar Gold, with its handsome black color, twinkling lights and regal gold trim, is destined to become the favorite in any location. It has all the great features — dramatic title display, ease of use — that made our CD-100 such a winner, plus an enhanced CD sound system.

So if you want to be a big winner, go for the gold: LaserStar Gold, from Rowe.

All Rowe jukeboxes are available through your local music and games operator.

THE LASERSTAR® GOLD CD-100A FROM ROWE.

LaserStar Gold's unique title display is designed to stimulate maximum customer play. Twelve full-size CD jackets are displayed along with highly-visible title strips, highlighted by theatrical step-framed halo lighting. The motor-driven pages can be flipped by push-button controls to display additional albums and tracks — up to a total of 100 CD albums. In the "attract mode," the title pages can be set to turn automatically at predetermined intervals, or move to a specific page number.

The LaserStar Gold can be connected to our eye-catching WallStar® units, giving locations the added advantages of remote selection. Or connect the LaserStar Gold to

our CD Dancestar to create non-stop dance music.

- **AUTOPLAY:** The LaserStar can be programmed to automatically play a random or programmed selection after a specific amount of time has elapsed.
- An entire CD album may be selected when enough credit is given.
- Bill acceptor accepts \$1 and \$5; available with 500 or optional 1000 bill stacker.

Three brightly-lit CDs rotate in a multi-reflective enclosure atop the LaserStar, dramatically increasing its excitement and impact.

Available from your local Rowe/AMI factory-authorized distributor.
