# THE LASERSTAR AMERICA® CD-100 C

LaserStar America's® acclaimed title display is designed to merchandise music and stimulate maximum customer play.

- Twelve full-sized CD jackets are displayed aside easy-to-read title strips and highlighted by theatrical, halo lighting.
- The motor-driven pages can be flipped by push-button controls and will accommodate up to 100 CD albums and title strips.
- In the "attract mode", the title pages turn automatically or move to a specific page number.

Atop the LaserStar America® and within a multi-reflective enclosure, three CDs rotate in a rainbow of changing colors for dramatically increased excitement and impact.

Set on AUTOPLAY, the LaserStar America® automatically plays a random or pre-selected track, at specific time intervals.

Integrate the LaserStar America® with a Rowe/AMI Wallstar® or Rowe/AMI Wallethe units and add the advantage of remote selection sites to any location.

Equipped with a reliable Rowe Bill Acceptor, the LaserStar® takes \$1 and \$5 bills and is available with a 500 or optional 1000 bill stacker.

LaserStar America's® optional remote control is the most advanced available. Remote selection, volume and reject control are just a few of its features.

The optional printer kit provides full MIS reports that include: cash totals, selection frequency of each track and album and the condition of every disk. Recommended printers may be purchased in your local marketplace.
